

While the world to-day looks primarily to the economic worker it must not be overlooked that the development of entomology depends also upon the strictly biologic and systematic workers. The whole is made up of its parts.

PAPILIO CRESPHONTES, VAR. MAXWELLI, NOV.

BY GEORGE FRANCK, St. Petersburg, Fla.

The triangular spot near the apex of the primaries is entirely filled out with sulphur yellow, giving the specimen a striking tropical appearance.

FIG. 1. *P. cresphontes*.

FIG. 2. *P. cresphontes* var. *maxwelli*.

This variety is named after my esteemed friend Mrs. J. B. Maxwell, of Faribault, Minn.
